Daily Bodie Standard.

T. S. HARRIS,
Publisher and Proprietor.

THURSDAY, JULY 10, 1879.

NOTICE.

Hereafter and until further notice the DAILY and WEEKLY STANDARD will be delivered to subscribers, in Bodie, by W. H. ELLIS, who is authorized to make collections and receipt for subscriptions.

J. W. STINSON is our carrier for Bodie Hill, and is authorized to solicit for subscriptions, advertising and job work, collect and receipt for same.

T. S. HARRIS,
April 28, 1879. Proprietor.

NOTICE.—No bills, accounts, or orders given by any person connected with the BODIE STANDARD will be paid by me, except the same is given by myself or H. L. Childs, Business Manager. In the settlement of the late firm affairs, I assumed none other than firm debts.

T. S. HARRIS.

First Annual Meeting of the California Press Association.

SAN FRANCISCO, May 1, 1879.

The first annual meeting of the California Press Association will be held in the parlors of the Palace Hotel, San Francisco, on Wednesday, July 16, 1879, at 12 o'clock M.

You are cordially and earnestly invited to be present and co-operate with us for the general good of the craft.

Arrangements are now in progress by the Executive Committee of the Association to render the occasion a memorable one in the history of the Press of the Pacific Coast.

Among other features of the programme will be a special entertainment at one of the leading theaters of the city, a banquet at the Palace Hotel, and an address by a distinguished ex-member of the Press. Fraternally yours,

F. K. KRAUTH, Secretary.
By order of Executive Committee. td

A Chicago paper tells of a poor man who went to Leadville and took out $10,840 in five weeks. He did it all alone, and his only tools were a pack of cards and a seven-shooter.

It is an interesting fact that the progress of scientific knowledge is so rapid that the great cyclopedias and dictionaries, instead of being always infallible authorities, are compelled to make frequent amendments. Being stereotyped, they are compelled to melt up their whole stock every few years, and reprint the whole or soon become unreliable and antiquated.

The New York *Tribune*, in an article upon mining stocks and the noted increase of the business in that city, intimates that the disposition to enter more and more largely into the mining business is upon the increase, and may extend to yet far greater volume. It thinks that from five to twelve millions of dollars have been invested in mining interests within the past year by New York capitalists.

A merchant, sitting in his office in South street, New York, recently received an answer to his dispatch sent to Shanghai, six hours previously. Thirty thousand miles in six hours is good time even for the telegraph. The charge to Shanghai is $2.80 per word; to Yokohama, $3.05; but the code, or cipher, is so well systematized by certain mercantile houses, that a single word serves for a dozen when transcribed.

The question has been propounded frequently of late regarding the return of General Grant, and anxious inquiries are made as to whether he really contemplates wearing blue overalls when visiting Bodie. We will state that he will probably not be back before next spring. It is reported that he will proceed to Australia, and enjoy the hospitalities of Sydney and Melbourne, when he leaves Japan. From Australia he will visit the Fijis and the Cannibal Islands, subsist on roasted missionaries till he gets the boil off his stomach, and then go on to Hawaii, where he intends to have a good time with King Kalakaua, and dance the hulu hulu with some of the fair Sandwichers.

The new French Minister of Public Works, M. de Freycinct, proposes a series of engineering works which effectually puts into the shade anything ever attempted on this continent. Even the Isthmus canal pales before this new project. So far as the amount of capital is involved, M. de Freycinct proposes to expend about $800,000,000 on a vast network of State railways and hydraulic works. His plans, which have almost all been sanctioned, comprise the maintenance of about 23,500 miles of national railways, not much more than half of which are at present in working order, and 5,000 miles of which have yet to be built, and the expenditure of $150,000,000 on new canals and old systems, and about $50,000,000 on the improvement and deepening of ports and harbors.

Considerable sensation has been caused at Lille and throughout the north of France by the escape of a nun from the Convent of the Sisters of St. Claire, who are known by the name of Les Clarises. This nun had, it seems, been detained in the convent, the rule of which is the strictest, for twenty-five years. Her escape took place under remarkable circumstances. The sisterhood had bought a house contiguous to their convent, and bricklayers were employed to pull down the wall between the two buildings, so as to make them communicate. After the fashion of French workmen, the bricklayers went to sleep after their dinner, when the refractory (?) sister stepped through an opening in the wall, and, walking out, proceeded to her father's house in the town, which she had left a quarter of a century before, and where she now remains. It is said she is suffering from the effects of her long seclusion, and, as the anti-Clerical prints are publishing inflammatory articles on the subject, public feeling among the lower classes at Lille run very high against the sisters.

An English journal frankly gives credit to America genius for at least fifteen inventions and discoveries which, it says, have been adopted all over the world. These triumphs of American genius are thus enumerated: First, the cotton gin; second, the planing machine; third, the grass mower and grain reaper; fourth, the rotary printing press; fifth, navigation by steam; sixth, hot air or caloric engine; seventh, the sewing machine; eighth, the India rubber industry; ninth, the machine for manufacture of horse shaes; tenth, the sand blast for carving; eleventh, the gauge lathe; twelfth, the grain elevator; thirteenth, artificial ice manufacture on a large scale; fourteenth, the electro-magnet and its practical application; fifteenth, the composing machine for printers.

[SPECIAL TO THE BODIE STANDARD.]

EASTERN NEWS.

Saratoga Regatta.

SARATOGA, July 9.—The weather and lake are all that could be desired for the regatta, which was opened with a pair-ore race. One zephyr pair did not stand, and the other gave out before reaching the end of the course. The race was won by the Olympics in 9.41¾, Wah-Wah second. The college four contest was left to Cornell alone, and a mile and a half was made in 9.15. J. Lewis, of Cornell, had the college single scull race all to himself, also, and he covered a mile and a half in 11.54½. The first trial heat of the senior singles was won by Murray, of the Elizabeth Club, in 11.35½; the second was won by R. Wathburn, of New York, in 11.31½, and the third by Holmes in 10.53½. In the six-oar shell race the Shawmut Club of Boston, the Mutual Club of Albany, and the Dauntless Club, of New York, started, the last boat carrying a coxswain. The Mutuals won, Dauntless second and Shawmut third. Time—8.50, 9.55½, 9.11½

Clearing-House Report.

NEW YORK, July 9.—The *Public* gives a table showing the clearing-house exchanges for the week ending July 5th, as compared with the corresponding week of last year. From this it would seem that the increase is still large and general, notwithstanding the week contained one more holiday this year than last. The following cities have gained: New York, 20.3; Boston, 3.10; Philadelphia, 13.4; Chicago, 58.9; Cincinnati, 13.7; San Francisco, 7.9; Baltimore, 7.4; St. Louis, 6.3; Louisville, 24.7; Cleveland, 14.3; Indianapolis, 5.7; New Haven, 1.3; Syracuse, 34.4; Lowell, 7.2. The following cities have lost: New Orleans, 25.8; Milwaukee, 12.5; Pittsburg, 6.4; Providence, 15.6. The *Public*, in commenting on this exhibit, says it does not appear that Milwaukee shares in the activity of trade which movements in grain have caused at Chicago. But it is probable that a considerable part of the increase at the latter city was due to the settlement of June contracts in wheat rather than to any actual transfers of property. Neither here nor at San Francisco, however, were transactions materially affected by speculative movements in stocks. The volume of legitimate business, in the strictest sense, appears to be unusually large for the season.

Mail Robber Arrested.

NEW YORK, July 9.—A special agent of the Postoffice Department at Washington arrested a mail robber in New Mexico belonging to a gang of Texas highwaymen. The Judge granted an order of removal to Texas for trial, but the United States Marshal had no money to pay the necessary expenses. He telegraphed the Marshal of Texas, but the latter was in the same condition. The Postoffice Agent thereupon started for Texas with his prisoner, the stage companies carrying him on trust, and the agent providing provisions for an 800 mile journey, guarding the desperado night and day himself.

Bennett's Polar Expedition.

NEW YORK, July 9.—The *World* to-day says: The expedition yesterday dispatched from San Francisco: The expedition will make a dash for the North pole, and is the first sent by way of the Pacific Ocean for strictly polar purposes.

The *Tribune* says the route Bennett has selected is the most promising he could have chosen. Because least explored, there is no reason why channels between the Arctic and Pacific Oceans should not offer as favorable an approach to the Polar region as either of the routes heretofore selected.

FOREIGN.

The Berlin Treaty.

LONDON, July 9.—Lord Saulisbury, in a speech at a banquet given to the Conservative members of Parliament for the city of London, said that the stipulations of the Berlin treaty had been carried out, and that the frontier of India had been secured by the Afghan war. The positions in the Mediterranean, he said, must be held by the Turks for the sake of peace in Europe. The British Government had done all it could for Turkey and the peace of the world. Lord Saulisbury added: England must always be prepared for war.

Interesting News Items.

LONDON, July 9.—A dispatch from Capetown, dated June 24, via Maderia, reports that General Crealock reached Fort Chelmsford June 19. A general advance was made on the 20th, and the Umealazi river was bridged on the 21st.

General Newdigate has reached the Upoko river, and his advance guard is near Ibabonango.

Colonel Wood was expected to join General Crealock in a few days.

It is rumored that Cetawayo has withdrawn the regiment which was watching the first divislon, in order to defend Kraal.

The Amaetongas are prepared to enter into an alliance with the British.

A Paris correspondent of the *Times* states thst everything tends to show that Prince Jerome Napoleon intends accepting the position of a Prince Imperial.

The coffin containing the remains of the Prince Imperial will be opened immediately when it arrives at Woolwich, and the corpse formally identified. There will be few watchers, but sentries will remain in armory all night, with a strong guard of honor of the Royal Artillery outside. At about 5:30 o'clock on Saturday morning the coffin will be placed on a gun carriage drawn by eight horses and conveyed to Chiselhurst, escorted by the Royal Horse Artillery.

Chilian War.

MADRID, July 9.—In Congress yesterday the Minister of the Marine stated that the Government had no intention of sending a Spanish man-of-war to the Chilian waters, as Spain has no connection with the belligerents.

PACIFIC COAST.

Stabbing Affray.

PORTLAND, Oregon, July 9.—A serious and probably fatal stabbing affray occurred at Comstock Station last night. George Long met S. Ferrell, section boss on the O. & C. R. R., attacked him with a bowie-knife and stabbed him eight times about the breast. One of the wounds extends through the body and is pronounced fatal by the attending surgeon. Long came to this place and gave himself up to the authorities. The cause of the affray is not definitely known. It is reported that Long had circulated stories derogatory to Ferrell's wife.

NEW TO-DAY.

WANTED.

A GIRL TO TAKE CHARGE OF A DINing room at one of the mines. Apply at this office. jy10

BODIE THEATER.

FAREWELL BENEFIT OF

Miss Mollie Raynor,

Saturday Evening, July 12th,

ON WHICH OCCASION THERE WILL be a host of volunteers, Miss Raynor takes pleasure in announcing to the public that she has secured the services of

C. A. THORNTON,

The talented young Irish Comedian, late of the California Theater and Grand Opera House, San Francisco, who will make his first appearance in Bodie, at her benefit, in his great specialty of

Felix O'Callahan, in his "Last Legs."

UNCLAIMED.—There are messages at the telegraph office for G. H. Malter and D. Hallahan.

WANTED.—A first-class young lady who understands how to keep a dining-room neat and tidy (at one of the mines) can obtain a good situation by applying at this office.

DISTRIBUTION.—Lodging-house keepers of Bodie complain that they are obliged to "fire out" a large portion of their lodgers who are frequenters of the Chinese opium dens on account of the distribution of such a large variety and number of body lice.

A GOOD LAW.—It may be a surprise to many to know that there is a law on the statutes of California inflicting punishment and fine to those using profane, vulgar and boisterous language in the presence of ladies and children, but such is the case. The first trial of this kind was brought before Justice Peterson yesterday, and sentence will be pronounced today. We hope that the full penalty of the law will be imposed. A man, who so far forgets himself as to use profane or vulgar language in the presence of ladies on a public street deserves to be severely punished. We hope that we will not have occasion to publish another case of this kind. Great credit is due to our city officials in their efforts to protect our ladies from insult from these mean specimens of humanity.

Extent of Mining Investments.

The extent of the interest manifested in mining investments may be appreciated by a few facts, coming within the cognizance of the *Mail*. One of our contemporaries recently interviewed a number of bankers and brokers who are indentified with mining operations. The estimates made as to the amount recently invested varied from $5,000,000 to $12,000,000. We do not doubt that the larger total is near the mark. Let us suggest, in illustration, a few facts: Taking the Bodie stocks for example, it will be found that the Standard mine, a transfer office for which has recently been established here, has sold stock in the East to the amount of $1,000,000 and over. Mr. Lent has forwarded to San Francisco sums received to at least that extent. Of Bodie shares, it is certain that over 25,000 have within a short period been placed within the Eastern centers. Their average price will be at least $30 per share, making an additional three-quarters of a million. Other Bodie property and stocks, Bechtel, Bulwer, Mono, etc., are held here to the value of at least $500,000 more. And this represents only one district.

The total amount of money invested by New York, or through her business men, in Mono county, California, alone, cannot be a cent less than $2,000,000. In the matter of gravel mines, considered the safest and most certain of dividend paying property, we know directly of transactions covering at least $500,000. Within a week facts have come to us showing the sale of different properties in California, Nevada and Utah, the total amount of money transferred on account of which will not be less than $300,000. In the negotiation and placing of Black Hills property, the transactions noted will cover at least $500,000. Southern Utah is also coming into notice rapidly. The Horn Silver Leads and other bullion producers are quickening speculation in their direction. We know of a transaction now pending involving the systematic working of a valuable milling ore property, the "gophering" in which for horn silver, by the reckless prospectors who have owned it, alone has paid several fortunes. We can readily add up from our own knowledge, in a total of transactions outside of Colorado, an aggregate of not less than $4,000,000. As to Colorado, the extent of the New York investments can hardly be realized. The three Leadville mining companies now in this market have taken of New York's spare cash not less than $2,000,000. There is a considerable amount of investment going on there and here, of which the public and the press seldom get a hint. Hundreds of thousands are being expended in the purchase of "claims," "locations" and "prospects," or are being put into furnaces, mills and other mining machinery.

We mention these investments and their extent to point to two or three conclusions. They are, first that the market for promoters is not likely to be as quick and ready as it has been. We do not mean to say that money will not be had, but that it will be slower, more cautious, and more apt to await developments and returns from what has been already invested, than was the case at first. Second, that persons bringing property here must be sure, if they desire to succeed, to carefully fortify themselves with the most thorough examinations of and reports on their properties that the circumstances permit. They must be careful also to come well sustained by character and square dealing. Third, that the next marked insistent movement in the direction of mining property will largely wait upon the movement of the stock markets here and in San Francisco, while at the same time there will be going forward a continued if more quiet process of assuming control of the mineral bearing region and its vast possibilities, of wealth and progress, from this city—the controlling centre of American business. As a further proof of the extent to which this is being done already, we mention the fact that there are now at least 76 mining companies organized under the laws of New York or having transfer offices here, representing a capitalization of $225,000,000 and a share division of at least $12,000,000. Of course such a capitalization is not real, and it is this exeess of circulation which gives so much unreality to mining stocks in the eyes of all those—and they are the large majority—whose attention is now being turned thereto. It should be borne in mind that the value test is not in the so-called capitalization, but in the market price as rated by the stock quotations—*New York Mail.*

STRIKING THE DRILL.—The Gold Hill *News* tells of an interesting drilling match between a carpenter and a miner, which resulted as follows: The drilling match between Robert Large and Henry Tonkin, at the Yellow Jacket new works, last Saturday, resulted in a victory for Large. The conditions were, each man to strike down a hole two feet deep in a piece of solid granite, the man accomplishing the task in the shortest time to win the stakes, which were $100 a side. Tonkin struck first, and put down his hole in 51½ minutes. Large then took the hammer and forced his steel the required depth in exactly 40 minutes. A considerable amount of money changed hands on the result. Large is a carpenter by trade. Tonkin is an experienced miner.

GOING A-FISHING.—One of the members of the firm of Reinstein & Wolf, a branch of which firm is established at Bodie and Mammoth City, says the Gold Hill *News*, takes his departure as follows: Henry S. Reinstein, the well-known and popular salesman with the clothing firm of Reinstein & Wolf, Main street, leaves to-night for a trip to Washington Territory, to be gone a month. He is supposed to have business matters in that section, but he merely says he is going a-fishing. Perhaps there's a lady in the case. *Quien sabe!*

PROVIDED.—"Yes, Agnes, I'm going to have a cream-colored silk, provided pa doesn't veto the appropriation ma has passed.

COMMUNICATED.

BODIE, Cal., July 10, 1879.

MR. EDITOR: My attention having been directed to an article in the *News* of this morning, headed "A Canard," and as I am the person alluded to in said article, wherein I am charged with having salted a sample of ore taken from the Champion mine, I will here take the liberty of protecting myself and state that it is false in every particular. Considering the fact that Superintendent Hanchett was very much intoxicated when he was interviewed by the *News'* man, and gave that piece of information, I am perfectly willing to overlook the false charge. In regard to the mine, I will simply state the facts since things have taken such a peculiar shape: At a distance of 225 feet east of the shaft, and at a depth of 401 feet from the surface, the ledge was struck, which measured seven feet in width and assayed from $15 to $50 per ton. Strenuous efforts were made by myself and the management to keep the strike a secret for the time being, but the effort was not successful. The strike was of such importance that one or two of the employes in the mine told their friends and advised them to buy the stock, and as a matter of course the information was soon scattered broadcast. The management then considered the next best thing to do was to sacrifice some one connected with the mine and make it appear to the public that it was "floated" from the Bodie so the Rutherford faction could get control of the stock for the election, which comes off the present month. So in council it was decided to discharge me and report that I had salted the mine; but I do not propose to be made a party to such a disreputable scheme of robbing innocent stockholders. The ambitious individual—as the *News* particularly calls me—has nothing to be sorry for, and does not entertain the slightest wish to go back into the same den of thieves from which he has just emerged. Hence this reply.

WILLIAM ALPERSON,
Late Foreman Champion Mine.

Yankee Fork.

We clip the following from the Eureka *Sentinel* of the 6th inst: Mr. D. H. Hall is in receipt of a letter from Mr. H. D. Jaquish, dated Bonanza City, June 26th, from which we have been permitted to make the following extracts:

"I arrived one week ago, and since that time have inspected most of the mines, and looked around generally. I have concluded that I am both a year too late and a year too early—too late to secure town lots, and too early for mining operations. From $1,000 to $2,500 is asked for lots on the main street, and $100 and over for those located on the mountain side.

A good deal of prospecting has already been done, and as soon as machinery arrives the country will undoubtedly de developed, and the camp will prove a 'banger.' Work on the road from Challis will be commenced on Monday.

But little work is being done in any of the mines, save the Norton, which has a tunnel 450 feet, in good ore, and a shaft 65 feet deep. Not over 40 men are employed in all the mines.

I would not, under any circumstances, advise either capitalists or laborers to come here this season."

DISCOVERY OF A BRICK MINE.—The Esmeralda *Herald* of the 5th gives an account of the discovery of a brick mine near Aurora, and says that it is not simply a mine containing clay suitable for making brick, but veritable bricks, already made and burned. Thus far the lead has only produced about 4,000. The walls are well defined and the country rock of staple character. Such a report, emanating from anyone but our veritable Dormer, would kill our susceptibility ere that old kiln was much developed. We can't help fancying that what first prompted the prospecting of a brick mine must have been the successful find of a fair specimen in the editor's hat.

VARIETY STORE.—A STANDARD reporter in looking around this morning stepped into Mr. Berliner's store on Main street, and was much surprised at the amount of goods that could be got into such a small circumference. We could not begin to describe what we saw, but there was enough to tempt anyone who wished for a good bargain, and we advise the ladies to call in especially. Mr. Berliner is the agent in Bodie for T. M. Antisell's pianos and organs, which he sells on the installment plan, thereby rendering it in the power of every family in Bodie to have the sweetest of home comforts—music.

MUST USE PRINTER'S INK.—Instructions have been forwarded from the Postoffice Department, to use nothing but "Printers' ink" in canceling stamps on letters or packages in future, as it has been found that the analine and other fancy inks used to cancel with can easily be washed off. Parties in the East are extensively engaged in this work of washing stamps and selling them again for use, and it is estimated that during the year past the Government has been defrauded out of $2,000,000 in that manner. Who would doubt the people of the Atlantic States are not enterprising.

COURT MATTERS.—The case of M. Budic, for attempting to shoot another in front of Wagner's saloon on Monday night, was brought before Justice Peterson for hearing yesterday. The testimony was very conflicting, and District Attorney Whitman, seeing that a charge of felony could not be sustained, accepted a plea of guilty of misdemeanor, and Justice Peterson fixed the fine at $30. The fine was paid and the prisoner discharged.

PAY DAY NOTICES.—One of the most convenient advantages of the list of pay day notices published in the STANDARD by all of the principal mining companies in Bodie is the fact that it serves as a directory as well as the purpose for which they are inserted. There are a great many superintendents employed and changes occur frequently, which makes it a task to keep the run of the names of the said officers. Therefore the notices are referred to by residents as well as strangers.

SCISSORISMS.

The colored brother in a Virginia church hit the nail on the head when he prayed at the close of the white brother's sermon: "Lord, bress de brudder to whom we has listened to so patiently."

Charles Sumner was no musician. It is related that a lady friend once told him that if he were to buy a music-box set to "Old Hundred," she did not believe he could make it play "more than seventy-five."

An old dealer at Wells River, Vt., recommending a side of leather, said: "It was made by Buenos Ayres, one of the greatest producers of leather in the world. Old Buenos is dead, but the boys still carry on the business."

Did you see Baron Y.'s horse fall on his jockey over that hurdle?" "Oh, yes; the jockey's killed, but the horse is all right." "Yes, I know; it don't amount to anything, but the Baron must have been fearfully scared."

A contemporary regards it as the eighth wonder of the world that a fellow will chew dog-leg pretzels three weeks old with great gusto in a beer saloon, but will go home and kick the table over if the sponge cake happens to be a little dry on one side.

"German beer" is being shipped from this country to France.

London is pleased by a new singer from Castile; a Castile soop-rano.

The Boston *Post* thinks that what the country now wants is city boaders.

The Yosemite Falls will never be dammed. Some of the guides ought to be.

Hartford boasts a man who has been to see "Pinafore" thirty-six times, and yet lives.

What is the difference between "collision" and "collusion?" Surely U and I ought to know.

The New Orleans *Picayune* says that horse-clipping is not approved by the hewmane society.

HER DARLING RAT.—A lady offered $100 reward for the recovery of a pet white rat in the Syracuse *Courier* Saturday. The reporters learned that she was a morphine eater, and on a visit to her father, a respectable gentleman of Syracuse. The drug was taken to allay pain. After her arrival on Friday, when under opium influence, the pet rat fell out of the bosom of her dress, where she was in the habit of carrying it, and was killed by market men. The lady says she cannot sleep until she has another pet rat, and has started for New York to obtain one. Her father says the rat was perfectly tame and devoted to its mistress, who is rational upon all other subjects except this pet and morphine or opium. She says she was robbed of valuable rings while under the influence of the drug, but added: "I can buy more rings, but will give $500 to regain my darling rat."

RESUMPTION OF THE RUSTLER.—The Rustler Company, owning that well known and valuable mining location, having arranged all their complications, have resumed work under the most favorable auspices. The immediate work will be timbering the shaft and putting everything in readiness to set up steam hoisting works, all of which will be done as soon as a good force of men can accomplish the same. Mr. A. H. Griswold received a telegram to-day ordering him to take charge as superintendent. The company have an efficient manager in Mr. Griswold.

TOO MUCH GRAMMAR.—The peril of employing highly educated young men as clerks was again illustrated yesterday. A woman stopped at a green grocer's on Woodward avenue and asked:

"Is them lettuce fresh?"

"You mean that lettuce," suggested the clerk, "and it is fresh."

"Then you'd better eat it," she snapped as she walked on.

The grocer rushed out and asked what had happened to anger her, and the young man replied:

"Why, nothing, only I corrected her grammar."

"You have turned awav one of my best customers. Only yesterday she came in and asked me how I sold those white sugar, and I got an order for a whole barrel. Hang you, sir! but if them customers want grammar they don't expect to find her in a grocery! No, sir, and if you see she again you want to apologize in the most humblerest manner!"—*Detroit Free Press.*

Application for a Patent

TO THE LIZZIE MINE.

[No. 143.]

UNITED STATES LAND OFFICE,
Bodie, California,
June 16, 1879.

NOTICE IS HEREBY GIVEN THAT THE Oro Mining Company, whose postoffice address is San Francisco, California, has this day filed its application for a patent for fifteen hundred linear feet of the Lizzie mine or vein, bearing gold and silver, with surface ground one hundred feet in width, situate, lying and being in Bodie Mining District, County of Mono and State of California, and known and designated by the field notes and official plat on file in this office as Lot Number 103, in Township 4 North, Range 27 East of Mount Diablo Base and Meridian. The exterior boundaries of said Lot No. 103 being as follows, to wit: Variation 17 degrees east.

Commencing at a post at the northerly end of the Lizzie lode line; thence S 66 degrees 48 minutes E, .75 links to a post marked "Lizzie, Post No. 1, N E corner," in mound of rocks; thence (deflecting 93 degrees 18 minutes to the right, making the interior angle 86 degrees 42 minutes no deviation) S 28 degrees 30 minutes W, 17.08 chains, shaft bears west 19 links, distant 17.25-3 post L L No. 2, bears N 66 degrees 48 minutes W, 75 links distant to a post marked "Lizzie, Post No. 2," in mound of rocks; thence (deflecting 9 degrees 3 minutes to the left, making the interior angle 89 degrees 3 minutes no deviation) S 17 degrees 27 minutes W, 5.47-7 chains to post marked "Lizzie, Post No. 3, S E corner," in a mound of rocks for the S E corner, from which section corner common to Sections 16, 17, 20 and 21, Township 4 N, Range 27 E, Mount Diablo Meridian, bears S 36 degrees 44 minutes W, 16.93 chains distant. The northeast corner of the Noonday mine (Scowden survey) bears S 14 degrees 17 minutes W, 3.59 chains distant; thence (deflecting 95 degrees 45 minutes to the right, making the interior angle 84 degrees 15 minutes no deviation) N 66 degrees 48 minutes W, 75.7 chains post marked "Lizzie L L, No. 2, S B," 1.51 chains to post marked "Lizzie Post No. 4, S W corner," in a mound of rocks for S W corner; thence (deflecting 84 degrees 15 minutes to the right, making the interior angle 95 degrees 45 minutes no deviation) N 17 degrees 27 minutes E, 5.47-4 seconds post marked "Lizzie L L, No. 2," bears S 66 degrees 48 minutes E, 75.8 links distant to a post marked "Lizzie, No. 5," in a mound of rocks; thence (deflecting 90 degrees 3 minutes to the right, making the interior angle 17 degrees 57 minutes no deviation) N 26 degrees 30 minutes E, 17.25-3 chains to a post marked "Lizzie, Post No. 6, N W corner," in a mound of rocks for the N W corner; thence (deflecting 88 degrees 42 minutes to the right, making the interior angle 93 degrees 1 minute no deviation) S 66 degrees 48 minutes E, 75.8 chains to post at the northerly end of the lode line, the point of beginning, containing 3.41 acres.

This claim is bounded on the north by Goodshaw mining claim, west by the Inca, east and south vacant land.

The location of this mine is duly recorded in the Recorder's office of Bodie Mining District, in Book F, page 5, of Mining Records.

Any and all persons claiming adversely any portion of said Lizzie mine or said mining ground as hereinbefore described, are required to file their adverse claim with the Register of the United States Land Office at Bodie, in the State of California, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the Statute. R. M. BRIGGS, Register.
